

How to create live classes...

Proacademy LMS

Proacademy supports live classes for instructor users so if the instructor wants to conduct a live class, should navigate to the instructor panel/ Settings/ Meeting and define Zoom token.

You can get the Zoon JWT from [this link](#). After you log-in to your zoom account click on the “JWT” section.

Choose your app type

The screenshot shows a grid of five app type options. Each option is presented in a white card with rounded corners. The 'JWT' card is highlighted with a red arrow pointing to its 'Create' button. The 'Chatbot' card includes an illustration of a chatbot interface. The bottom-right card contains a magnifying glass icon over a document and a link to 'Help me decide'.

App Type	Description	Action
JWT	Build an app that supports server-to-server integration with Zoom services without a need for user authorization. Generate your API Key & Secret.	Learn more, Create
OAuth	Build an app that accesses user-authenticated data for use with third party applications. Generate your OAuth Client ID & Secret.	Learn more, Create
Chatbot	Build a Zoom chatbot that gets installed in the Zoom Client and interacts with users via chat. Generate your Chatbot Client ID & Secret.	Learn more, Create
SDK	Build mobile, desktop, progressive web apps, and hybrid apps that integrate Zoom Client functionalities. Generate your SDK Key & Secret.	Learn more, Create
Webhook Only	Receive event-based notifications for Zoom account events such as meeting events, webinar events, cloud recording events, and more.	Learn more, Create

Fill out the form and get JWT code.

Note: If you want to use Zoom, you should pass the above step. If you want to use others, ignore it.

Vacation Mode

To create live classes navigate to the course create page from the top navigation bar and select “Webinar” or “Webinar + Course”.

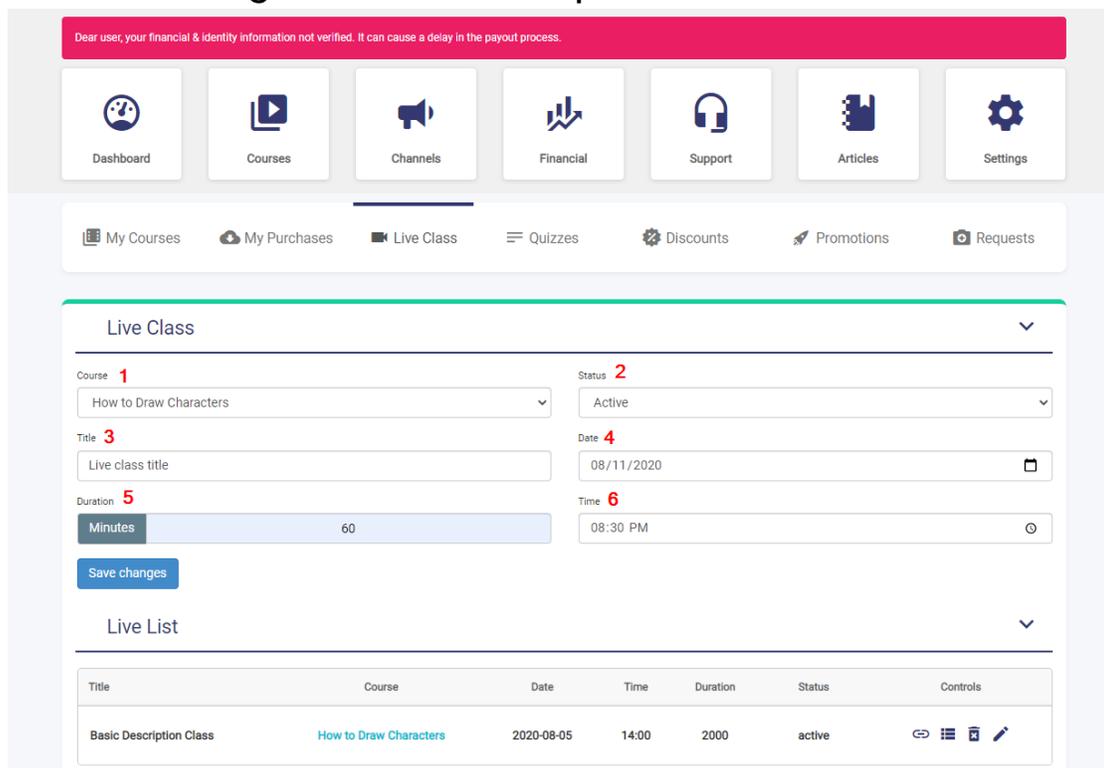

If you want to conduct just live classes without offline video files, select “Webinar” and if you want to sell files in addition to the live class, select “Webinar + Course”.

After you created the course data such as images, details, information, etc save the course.

To define live class sessions there are two ways:

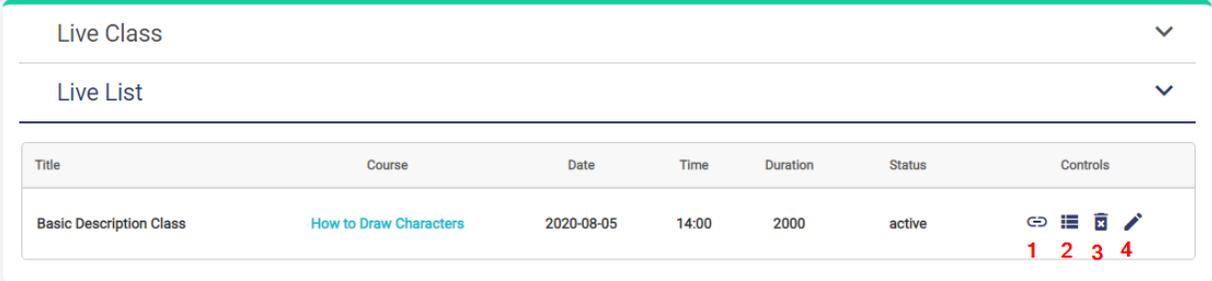

1- You can navigate to the users panel/ Courses/ Live class

You will be able to define the live class information in the first tab.

You can also add live class session to the existing courses from here.

After the live class created, you can manage from the “Live list” tab.

Title	Course	Date	Time	Duration	Status	Controls
Basic Description Class	How to Draw Characters	2020-08-05	14:00	2000	active	    1 2 3 4

- 1- Add live class sessions, the access links, password, etc.
- 2- View the attenders list (Students which purchased the live meeting)
- 3- Delete the live class
- 4- Edit

If you define the live class, the live class information will be displayed for the students on the course page.

Students will be able to access the live class link and password from the course page.

- 2- Another way to create a live meeting is from the instructor panel/ Courses/ My courses menu.

Add Meeting Date Active Meeting Link

1	2	Title	Date	Time	Duration	Controls
		Basic Description Class	2020-08-05	20:30	60Minutes	

You can create a meeting related to the course by clicking on the “1” button and you can define the session URL, password, etc by clicking on the “2” button.

If you want to use other systems live classes, you should create your live class directly in your favorite system and put the link as the live class URL.
